

Instructions:

Making Popcorn

1. Switch on **Kettle Motor & Exhaust, Kettle Heat** and **Warmer** (*Lights is Optional*)
2. Put the following into the kettle:
 - 1 Cup** – Popcorn Kernels
 - 1/3 Cup** – Popping Oil
 - 1 Tsp** – Flavor Salt
3. Allow to pop until you hear less than one pop per second (the first batch can take a while to get going).
4. Pull down on Kettle Lever to dump popcorn (repeat as necessary until Kettle is empty).
***Repeat Steps 2-4 for additional batches.*
5. When finished popping, switch off **Kettle Motor & Exhaust** and **Kettle Heat**.
6. Eat and enjoy!
7. When finished serving, switch off **Warmer**.

IF YOU MAKE POPCORN, CLEAN THE MACHINE.

(Seriously guys. It takes like five minutes.)
